

REMARKS

In response to the outstanding Office Action, dated September 10, 2004, Applicant submits the following remarks.

In the outstanding Office Action, the Examiner required corrected drawings in compliance with 37 CFR 1.121(d). A Replacement Sheet of Fig. 4 with the corrections as suggested by the Examiner is enclosed. Applicant respectfully requests withdrawal of the Examiner's rejection of the drawings.

The Examiner also objected to the disclosure as failing to comply with 37 CFR 1.77(c) for failing to include section headings. Applicant has enclosed a copy of a preliminary amendment which was filed with the application, which includes the insertion of section headings. Therefore, Applicants respectfully request withdrawal of the Examiner's objection of the specification.

The Examiner objected to claims 1 and 2 for the use "lightly". Applicant has amended claims 1 and 2, thereby obviating the Examiner's objections. Applicant asserts that the above amendments to the claims were made to improve readability or to broaden the scope of the claims, and not for reasons of patentability, and thus should be afforded full protection under the Doctrine of Equivalents.

In view of the amendments and above remarks, it is believed that the application is in condition for allowance. Accordingly, an early Notice of Allowance is respectfully requested.

Any fees due in connection with this Amendment should be charged to Deposit Account No. 13-0005.
